Blood Glucose Meters

Our cost-effective blood glucose meters guarantee the highest quality and levels of accuracy. Simple to use with no setup required, they:

- Come with Bluetooth connectivity as standard
- Compatible with SmartLog software and Diasend/ Glooko to help people manage their diabetes
- Have proven accuracy to the latest ISO standards^{1,2}
- Store 1,000 readings to meet DVLA memory requirements
- Show results within 5 seconds
- Only require a small sample size – 0.5µl or less
- 1, 7, 14, 30, 90 day test averaging tool (total, pre/post meal)
- Allow setting of multiple alarms (1 pre/3 post)

Strip Price: £7.75

Pack of 50

PIP Code: 386-3792

Case Study

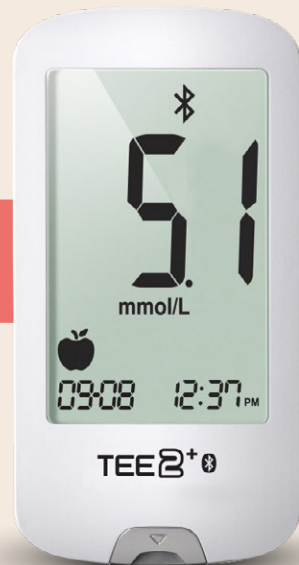

Patients using SmartLog and TEE2+ achieved lower blood glucose levels³

TEE2⁺

— for people with Type 2 diabetes

- Meets ISO 15197:2015 standards¹
- Large, easy to read LCD screen
- Auto coding minimises errors
- Strip expiration date indicator
- Hypoglycemia indicator
- Intuitive meal icon flagging display

Bluetooth

CareSens[®] Dual

— for people with diabetes who need to test both blood glucose and ketone levels

- One meter reads both blood glucose and ketone test strips
- Meets ISO 15197:2015²
- Auto coding minimises errors
- Large, easy to read display
- Strip ejection function
- Hypoglycemia and hyperglycemia indicators

NOTE: CareSens 30G lancets are suitable for use with CareSens N, CareSens Dual and TEE2+ meters, and are compatible with most lancing devices.

Pack size: 100 lancets (Price £2.95)

Insulin Pen Needles

- In line with NHS England recommendations of less than £5 per box
- Conforms to ISO 11608 and additional quality checks
- Precision engineered to reduce friction points and reduce pain
- Wide internal diameter for efficient insulin flow and administration

InsupenTM
Original

Available in 5 lengths and 4 gauges

Price: £3.55 Box of 100

Universal fit - for use with any standard insulin pen.

Spirit Wound Care

We regularly work alongside our colleagues in the NHS to jointly identify a range of products that are currently expensive and could do with a sprinkle of Spirit magic to make them more affordable.

Wound care is a complex and costly category. Our wound care product range suits most patient care needs and is both simple and cost effective.

The Spirit wound care selection replaces dozens of product lines with a catch-all range, with an average 30% saving on like-for-like products¹.

Our wound care range includes:

- Alginate dressings
- Hydrocolloid dressings
- Non-woven absorbent pads
- Super absorbent dressings
- Vapour- permeable dressings
- Breathable, absorbent island dressings
- Amorphous hydrogel and hydrogel dressings

SpiritCare Urology

It is estimated that 14 million people in the UK are living with some form of bladder problem¹ and that over 50% of patients in care homes have bladder problems, with incontinence being a significant reason for care home admissions². We believe this is an area that can be prescribed more efficiently.

Intermittent Catheters account for 69%³ of prescribing spend. SpiritCare Intermittent Catheters allow CCGs and Health Boards the potential to save 37%³ on annual spend.

Categories:

- Intermittent Catheter
- Foley Catheter
- Leg Bags
- Drainage Bag
- Incontinence Sheaths

Complimentary Spirit Active Implementation

We're proud to provide medicines optimisation solutions throughout the UK, and we always deliver on our promises.

National team

We have a national team of Pharmacists, Nurses and Technicians

Evidence based

We deliver evidence-based outcomes and build relationships based on trust

Solutions to suit you

We can provide national, remote (online) and regional solutions to suit your requirements

Full virtual active implementation capability

We can provide a fully remote service, eliminating face-to-face contact and including:

- ✓ Stakeholder engagement
- ✓ Clinician training
- ✓ Patient awareness programmes
- ✓ Patient investigation and audit
- ✓ Review clinics
- ✓ Patient record access / update
- ✓ Real-time tracking

Track record of delivering on our promises

Diabetes Reviews 2016 – 2020

90% of practices participated¹ | 70% of the eligible patient population were changed² | 91% of patients rated the change programme highly³
